

Asset Location Information**Applicant/Contractor****Job No. 3705876****DBYD Sequence No. 17314924****Name:** Not Supplied**Contact Name:** Mr Anthony Ashton**Telephone:** 0414551015**Mobile:** Not Supplied**Fax:** Not Supplied**Address:** 16 Wydalena Gr Cook Act 2614**Email:** ashton.tony@gmail.com**Work Details****Suburb:** Cook**Address:** Wybalena Gr**UBD Reference:** 48B9,48A9,47Q9,48B10,48A10,47Q10,48B11,48A11**Description:****Enquiry Date:** 08-Dec-2009**Issue Date:** 08-Dec-2009**Information**

The approximate location of ACTEW or ActewAGL assets for underground and overhead services in this area are shown on the ActewAGL Asset Plans attached.

Electricity Network Water Network Sewer Network Effluent Network Legend Sheet

Note that maps might be on pages of different sizes.

Comments:

This information is valid from **08-Dec-2009** to **08-Mar-2010**

**IN CASE OF EMERGENCY OR TO REPORT DAMAGE:
PHONE 13 10 93 ELECTRICITY. 13 11 93 WATER AND SEWER.**

PLEASE READ THE FOLLOWING IMPORTANT INFORMATION**Disclaimer****1. General location only**

The Applicant acknowledges that:

(a) Asset Plans:

- i. show only the presence or absence of ACTEW and ActewAGL Assets on the relevant work site;
- ii. show only the general and approximate location of Assets;
- iii. may show the position of Assets relative to fences, buildings, property lines, kerbs and/or other points of reference that existed at the time the Assets were installed. Any subsequent alterations to those fences, buildings etc may not have been updated on the Asset Plans. Persons should not rely on such things as a point of reference to estimate location of the Assets.

- (b) while ACTEW and ActewAGL have used reasonable endeavours to keep Asset location records current, neither party makes any warranty, guarantee or representation as to the accuracy, currency or completeness of the information contained in the attached Asset Plans.

2. Limitation of liability

To the maximum extent permitted by law:

- (a) subject to paragraph 2(b), ACTEW and ActewAGL and the officers, employees and agents of each accept no responsibility or liability for any loss, damage, liability, cost, expense, claim or proceeding of whatever nature and howsoever arising, incurred by or awarded against the Applicant or its officers, employees, agents, contractors or subcontractors, arising out of, connected with or as a consequence of use of the Asset Plans or any inaccuracies in the Asset Plans;
- (b) where:
- i. an ActewAGL representative has, at the Applicants request, attended the work site to mark the location of Assets prior to commencement of any works on the work site, and
 - ii. the ActewAGL representative has been proven to be negligent in marking the Asset location
- then ACTEW and ActewAGL's liability, and the liability of the officers, employees and agents of each, is limited, at ACTEW / ActewAGL's option, to re-attending the work site to re-mark the Asset location or paying the costs of having a third party attend the work site to re-mark the Asset location.

3. Electricity cables to be treated as LIVE

ALL electricity cables and conductors identified on the attached Asset Plans, including those marked as 'Abandoned', **MUST** be treated as 'LIVE' and dangerous until such time that they are tested and proven to be 'DE-ENERGISED'. ActewAGL recommends that cables identified as 'Abandoned' and which may be impacted, severed, damaged and/or removed by excavation works be proven 'DE-ENERGISED' and safe before commencing full-scale excavations.

4. Location of Assets may change

Assets may be moved, or additional Assets may be installed at any time. Persons using the attached Asset Plans are advised to be alert for changed locations or new installations performed after the Issue Date. If work extends for a period of 3 months beyond the Issue Date, a new application must be made to ActewAGL for up to date Asset location advice.

5. Work to be undertaken without interference or damage to assets

Any work undertaken near Assets, including without limitation excavation, structures, material storage, heavy vehicle parking, blasting or change of surface level, must be performed in a way that does not interfere with the reliability of, or access to ACTEW or ActewAGL Assets, including electricity lines or plant. Persons excavating are required to exercise care if Assets are indicated on Asset Plans and will be held responsible for any damage caused through failure to exercise such care. ACTEW or ActewAGL (as applicable) will pursue the person responsible for causing the damage or interference to their Assets to recover costs and expenses incurred in remedying such damage or interference.

6. Asset location marking

You may request an ActewAGL representative to visit the work site to mark the approximate location of Assets by calling 02 6293 5770 between 7:30 am and 4 pm. ActewAGL recommends that a site visit be conducted before commencing any works near Assets. Appointments will be accepted only if the Asset Location Information Sequence Number is supplied. The location and marking of Assets will not take place unless the Asset Location Advice and attached Asset Plans are at the work site. ActewAGL does not charge for these site visits. Alternatively, the Applicant may wish to engage a private underground Asset locator, at the Applicant's expense.

NB: Arranging for marking of approximate Asset locations by either an ActewAGL representative or private underground asset locator will not relieve the Applicant and persons working on their behalf of responsibility to exercise care when working near ActewAGL / ACTEW Assets or for any damage they cause to ActewAGL / ACTEW Assets while performing works.

7. Underground Assets must be located by potholing

Potholing or other non-destructive techniques must be used until underground Assets are located. When located excavation may commence provided that persons carrying out the excavation work must follow ActewAGL's recommended specifications concerning minimum safety distances when excavating within the vicinity of ACTEW or ActewAGL's networks.

8. Water mains 450mm or greater

Excavation of water mains 450 mm or greater must be done by ActewAGL Water Division at the Applicant's expense. To arrange please call ActewAGL Water Division's Technical Enquiry Line 6248 3555 (press 2 for water) during business hours. In an emergency call 13 11 93.

9. Substation Earthing Conductors

The information does not include details of substation earthing conductors that are usually installed within the vicinity of pole and ground mounted substations. General information only can be provided upon request.

10. Indications of the Presence of Cables

The presence of cables or conduits may be indicated by the following warning and marking devices

- o Letter "E" inscriptions on Kerbs or "Electrical" inscriptions on pit lids
- o Danger signs on above ground posts, walls etc
- o Thin Orange "Caution Electrical Cables" Warning Tape
- o Orange /Black PLASTIC Polymeric slab (3-6mm thick x 200mm wide)
- o Concrete Bricks or slabs (approx 200mm x 500mm)
- o Orange PVC or white Asbestos Cement (AC) Conduit or Galvanized Pipe
- o Cylindrical concrete "ACTEA Electric Cable" markers
- o Weak Concrete encasement directly around cables / conduits
- o Texture/ colour change of excavated material (bedding sand, cracker dust, clean fill)

Note that some cables may have been installed without the presence of such marking devices.

THIS DOCUMENT AND ASSOCIATED ASSET PLANS MUST BE KEPT AT THE WORK SITE.
